Winners will be announced after May 8th, 2016.

SCWEA Student Awards Winners 2015

Crystal McDonald – North West Central School, Plenty SK

Work experience has been an extremely helpful and insightful opportunity for me. I was able to work in several different placements that allowed me to explore the wonders of the working world. As a student that was entirely unsure of what career I wanted to pursue, work experience helped me rule out careers not right for me and spark my interest in ones that were. The class also taught me lessons on how to communicate with people and how to be an excellent employee in my future career path, lessons that are not generally taught in a classroom. Work experience is a great opportunity and has helped me make many decisions about my future.

Cassidy Jellison – Tommy Douglas Collegiate, Saskatoon SK

When I began the CWE program I was very lost in what I wanted to do with my future, I had a few ideas but no real direction. Through the program I was able to learn about myself, and get a better understanding of what type of career I would be interested in. For my first placement, I went to a kindergarten class. This experience helped me to realize that I want to be a teacher. The experience was so rewarding and eye opening that I can't really imagine doing anything else. Without that experience I may have never discovered my passion and talent for teaching. I really am grateful for this program and I would recommend it to any high school student.

Marc Shaw – G.F.. Kells High School, Carlyle SK

I had the opportunity to participate in the Career and Work Experience 10 program as well as Career and Work A30. I enjoyed taking part in both of these Career classes. By having access to these programs in my community, I was able to have exposure to three different businesses. I liked all the placements but it was my placement at South East Electric in Carlyle that I really found valuable. I had taken an electrical course at school so it was awesome to be able to put the skills I learned in class to practical use. My placement at South East Electric has encouraged me to pursue my dream of being an Electrician. I have learned many valuable skills at my job placements. I also am more aware of safety on the job. I learned new skills and had fun doing the placements.

Michael Haubrich – E. Peacock Collegiate, Moose Jaw SK

My CWEX class and work experiences have benefited me a lot over the years. It taught me the skills to work effectively in the workplace and be more confident with customers and employers. When I started CWEX in grade ten, I was really shy about meeting different people and trying new things. The class gave me practice in a safe environment and over the years and different job placements and experiences, I got more confident and communicated better with others (classmates, teachers, employers, and customers). I learned how to tell people if something was bothering me or not working well, how to problem solve, and learned many new skills.

Student Summer Programs

Bold Eagle Summer Program

Location: [Aboriginal Military Programs](#)

Date: [Click here to enter a date.](#)

This six-week long programs give you a taste of military training with the option - but no commitment - to join the Forces. The training based on the Army Reserve Basic Military Qualification and is taught by military instructors. Subjects include General Military Knowledge, Weapons Handling, Navigation, First Aid, Drill, and Survival Skills.

RCMP Youth Depot Camp

Location: [RCMP Depot Camp Website](#)

Date: [Click here to enter a date.](#)

The RCMP is pleased to offer a select group of high school students from Grades 11 & 12 the opportunity to experience life at the RCMP Academy ("Depot" Division) in Regina during a week-long Summer Youth Camp. The students will be exposed to drill, driver simulator training, firearms, police officer scenarios, a tour of Depot and the RCMP Museum, and much more

For more information about selection criteria and how to apply, please contact "K" Division Recruiting Section at 780-412-5488 or via email at RCMP.KRecruiting-KRecrutement.GRC@rcmp-grc.gc.ca

Student Summer Works Program

Location: [Student Summer works programs](#)

Date: [Click here to enter a date.](#)

A key priority for the Ministry of the Economy is ensuring students with employment barriers can gain work experience to build their employment capacity. The Student Summer Works (SSW) program is designed to connect students to quality part-time and full-time employment. The SSW program focuses on students with disabilities and Aboriginal students who continue to be under-represented in the growing workforce.
